Thursday (19/09/2019)	Conference Programme
08.30 – 09.00	**Registration and welcome coffee**

09.00 – 09.30

Opening session   Room: **A**   Language: **PL** **EN**

Key notes from honorable patrons

- Marcin Gruchała – Rector, Medical University of Gdańsk
- Janusz Cieszyński – Undersecretary of State, Ministry of Health
- Agnieszka Kapała-Sokalska – Member of the Management Board of Pomorskie Voivodeship

09.30 – 10.30

Key note: Room: **A**   Language: **PL** **EN**

Digital transformation and globalisation in healthcare

What is digital transformation? Are we ready for globalization in healthcare?

Speakers:

- Artur Pruszko – Director, e-Health Forum
  Digital transformation and globalisation in healthcare – why are we discussing about it?
- Charles Alessi – Chief Clinical Officer, HIMSS
  Digital Health Solutions
- Charles Parisot – Chair IHE Services, IHE Europe
  Health Digitalization and a Strategic Interoperability
- Hans Erik Henriksen – CEO, Healthcare Denmark
  Digital transformation of the Danish Healthcare System

10.30 – 11.00

Panel discussion – digital transformation and globalisation in healthcare   Room: **A**   Language: **PL** **EN**

Chair: Artur Pruszko – Director, e-Health Forum

Speakers:

- Janusz Cieszyński – Undersecretary of State, Ministry of Health
- Charles Alessi – Chief Clinical Officer, HIMSS
- Charles Parisot – Chair IHE Services, IHE Europe
- Hans Erik Henriksen – CEO, Healthcare Denmark
- Tomasz Staszelis – Digitalisation Director, Polpharma Group
- Maciej Surowiec – EU Government Affairs Manager, Microsoft

11.00 – 11.30	**Coffee break**

11.30 – 12.45

Digital transformation in healthcare in Poland – main challenges and key directions   Room: **A**   Language: **PL** **EN**

Speakers:

- Adam Niedzielski – President of National Health Fund (NFZ)
- Bartłomiej Wnuk – Director of Center for Healthcare Information Systems (CSIOZ)
- Agnieszka Kapała-Sokalska – Member of the Management Board of Pomorskie Voivodeship
- Magdalena Kołodziej – Vice President, WE – Patients Foundation
- Łukasz Jankowski – President, District Medical Council in Warsaw
- Artur Białkowski – Managing Director of Business Services, Medicover
- Tomasz Judycki – President of Polish Chamber of Healthcare / Vice P-president of Atende Medica

Subjects

- Status of digital health in Poland
- Key issues and challenges for stakeholders
- Recommendations for development of digital health in Poland

Thursday (19/09/2019)	Conference Programme

12.45 – 14.00

Panel discussion - Strategic challenges in digital transformation in Poland Room: **A** Language: **PL** **EN**

Chair: Artur Pruszko – Director, e-Health Forum

Speakers:

- Janusz Cieszyński - Undersecretary of State, Ministry of Health
- Adam Niedzielski - President of National Health Fund
- Elżbieta Lanc - Member of the Management Board of Mazowiecie Voivodeship
- Jarosław Fedorowski - President of Polish Hospital Federation
- Maciej Piróg – Confederation Lewiatan, CEO of "Budzik" (The Alarm Clock) Clinic
- Łukasz Jankowski – President of District Medical Council in Warsaw
- Maria Libura – Chairwoman of the Polish Association of Assistance to the Prader-Willi Syndrome
- Krzysztof Groyecki - Vice President, Asseco Poland

Comments:

- Charles Alessi - Chief Clinical Officer, HIMSS
- Charles Parisot - Chair IHE Services, IHE Europe

14.00 – 14.45

Lunch

14.45 – 16.15

Digital health - key trends and inspirations Room: **A** Language: **PL** **EN**

Speakers:

- Emmanuel Nabet - Digital Health Director, Healthcare Israel, Israeli Ministry of Health
  Introduction to Israel's Digital Health Strategy
- Maciej Surowiec - EU Government Affairs Manager, Microsoft
  AI in Health: are we there yet?
- Mark O'Herlihy - Managing Director EMEA, IBM Watson Health
  Get ready for AI . Realise the benefits in health and care
- Bartosz Pampuch - Vice President, Comarch Healthcare
  Telemedicine + EHR + AI = Patient
- John Deverill - Managing Partner, GE Healthcare Partners
  Command Centres – a new approach to the management of care at scale
- Aleksander Sowa - Oncology and Hematology Portfolio Strategy Director, Roche Poland
  Precision oncology – new sources of data
- Łukasz Kliszcz - Ekspert Enterprise Imaging IT, Siemens Healthineers
  Transforming care delivery through AI-based decision support

The session will focus on new trends in digital healthcare that may consist an inspiration for the transformation process in Poland.

14.45 – 16.15

Thematic session

1.1 Digital maturity of healthcare providers Room: **E** Language: **PL** **EN**

Moderators:

- Michał Kępowicz - Director of Strategic Relations, Philips Health Systems Poland & Baltics
- Michał Bedlicki - Deputy Director of Center for Quality Monitoring in Health Care and Accreditation Program in Health Care

Speakers:

- Janusz Cieszyński - Undersecretary of State, Ministry of Health
- Charles Alessi - Chief Clinical Officer, HIMSS
- Mariusz Feszler– Deputy Director of Information Society Department, Podlaskie Voivodeship
- Jakub Kraszewski - Director, Gdańsk University Clinical Centre
- Andrzej Osuch - Director of Business Transformation, Lux Med
- Rafał Włach - Director, CompuGroup Medical Polska

This session will point out best practices in implementation of digital maturity, as well as discuss key dimensions of digital maturity of healthcare providers and their environment.

Thursday (19/09/2019)	Conference Programme
16.15 – 16.30	**Coffee break**
16.30 – 18.00 **Thematic sessions**	

2.1 Operation efficiency of healthcare providers
Room: **E** Language: **PL** **EN**

Moderator:

- Piotr Popowski – Head of Polish Association of Healthcare Programmes (PTPZ) Centre of Integrated Care and e-Health, Medical Univeristy of Gdańsk

Speakers:

- Adam Niedzielski – President of National Health Fund (NFZ)
- Roman Topór-Mądry – President of Agency for Medical Technologies Assesement and Tariffs
- Angela Irony – Nursing & Medical Centres Officer, Maccabi Healthcare Services
- John Deveril – Managing Partner, GE Healthcare Partners
- Jacek Grabowski – Chancellor of Medical University of Lodz
- Janusz Boniecki – Vice President of Polish Hospital Federation
- Ligia Kornowska – Managing Director, Polish Hospital Federation

Digital transformation makes it possible to implement new approach towards increasing operational and process efficiency of healthcare providers and the entire health system. Based on best practices, we will try to identify opportunities, as well as suggest managerial and deployment actions in Poland.

2.2 Interoperability – gate to global markets
Room: **F** Language: **PL** **EN**

Moderator:

- Jürgen Brandstätter – Vendor Co-chair, IHE Europe

Speakers:

- Jan Staniłko – Department of Innovation, Ministry of Entrepreneurship and Technology
- Wiktor Rynowiecki – Deputy Director, CSIOZ
- Magda Gajownik de Vries – Department of Innovation Development, Polish Development Fund
- Andries Hamster – VP Business Development, Philips / Forcare
- Maciej Malenda – Coordinator, Digital Health Hackathon
- Bartosz Pampuch – Vice President, Comarch Healthcare
- Marcin Szajek – CTO/CSO & Co-funder, Stethome

During this panel, representatives of Polish startups and international industry, authority representatives and e-health experts will take part in a discussion on how Interoperability standards could simplify and speed up globalization of health IT, will show the barriers to engage into standards-based products development and innovations.

2.3 e-Prescription – facts & myths
Room: **A** Language: **PL** **EN**

Moderator:

- Marcin Czech – Professor, Institute of Mother and Child in Warsaw, Warsaw Technical University

Speakers:

- Janusz Cieszyński – Undersecretary of State, Ministry of Health
- Magdalena Kołodziej – Vice President, WE – Patients Foundation
- Marian Witkowski – Member of the Presidium of Chief Pharmacy Council (NRA)
- Dorota Kilańska – President of the Florence Foundation / Medical University of Lodz
- Paweł Żuk – President of Medical & Diagnostocs Centre
- Bartłomiej Chudawski – Vice President, EuroSoft

During this session we will discuss the first results of implementation of e-Prescription in Poland. We will get to know first experiences and assessments of key stakeholders and we will try to formulate lessons learnt from implementation of e-Prescription that can be helpful for forthcoming large scale e-health projects in Poland.

Thursday (19/09/2019)	Conference Programme

2.4 Digital Health - case studies   Room: **C**   Language: **PL**

Speakers:

- Ernest Wiśniewski – Vice President for development and finance, National Council of Physiotherapists
  Digital revolution in rehabilitation

- Adam Kołodziejczyk – Business Development Director, Gabos Software
  Wide Medical Solution – Hospital Information and Resource Planning System

- Jakub Sierakowski – Board Member, UseCrypt
  Innovative protection of medical data for healthcare providers – an example of USECRYPT implementation

- Wojciech Jaworski – Product manager B+R, LekSeek Poland
  Medical information system – alternative savings in healthcare

- Grzegorz Truchel – Director of Medical Services Management Office, PZU Zdrowie
  Transformation of patient care model in PZU Zdrowie

- Dominik Meller – Business Development Manager, Philips Health Systems
  Integration of vital signs monitoring systems from the clinical, research and qualitative perspective

This session will review selected implementation of digital technology in healthcare.

18.00 – 19.15

Thematic sessions

3.1 AI in diagnostics- case studies   Room: **E**   Language: **PL** **EN**

Moderator:

- Piotr Soszyński – Strategic Medical Advisory Director, Medicover

Speakers:

- Mark O'Herlihy – Managing Director EMEA, IBM Watson Health
- Ligia Kornowska – Managing Director, Polish Hospital Federation
- Mieczysław Pasowicz – President, Polish Association of Hospital Directors
- Tomasz Domino – Chief Operating Officer, Infermedica
- Marcin Szajek – CTO/CSO & Co-founder, Stethome
- Michał Wroczyński – CEO & Co-founder Samurai Labs

In this session, selected examples of AI in healthcare are presented, the benefits of use of AI are pointed out, as well as barriers and risk factors related to the use of AI in healthcare.

3.2 Blockchain - key use cases   Room: **V**   Language: **PL**

Moderator:

- Michał Gawryś – Manager, IBM Polska

Speakers

- Łukasz Borzęcki – Product Development Director, CompuGroup Medical Poland
- Ernest Frankowski – CEO & Founder, IT9
- Wojciech Sierocki – CMO, Serumchain

Blockchain is the new promising solution, which has been successfully used in various industries This session will be a place to discuss possible and highly promising "use cases" of blockchain in healthcare.

3.3 New pharmaceutical care / e-Prescription 2.0   Room: **A**   Language: **PL** **EN**

Moderator:

- Marcin Czech – Professor, Institute of Mother and Child in Warsaw, Warsaw Technical University

Speakers:

- Jürgen Brandstätter – Vendor Co-chair, IHE Europe
- Andrzej Sarnowski – Manager of P1 Project, CSIOZ
- Elżbieta Piotrowska-Rutkowska – President of the Chief Pharmacy Council (NRA)
- Tomasz Zdrojewski – Head of Dept Prevention at the Medical University of Gdańsk
- Monika Zamarlik – President of the Federation of Polish Federation of Organizations for Assisting Children and Youth with Diabetes

Thursday (19/09/2019)	Conference Programme
18.00	• Piotr Merks – Assistant Professor, Collegium Medicum, Cardinal Wyszyński University • Tomasz Zieliński – Vice President, Zielona Góra Association • Aleksandra Golecka-Kuźniak – Chair of the Supervisory Board, Gemini Pharmacies • Tomasz Judycki – President of Polish Chamber of Healthcare IT / Vice President of Atende Medica • Krzysztof Kopeć – President of Polish Association of Employers of the Pharmaceutical Industry **During this session the solutions of new pharmaceutical care will be presented and suggestions for their implementation in Poland will be formulated.** **3.4 Hackathon – presentation of works** Room: **C/F** Language: **PL** **Sessions:** • NFZ Challenge (Room C) A predictive model for identification of patients exposed to a given disease in order to take prevention actions • Medicover challenge (Room F) A predictive model for identification of patient groups in order to propose efficiently diagnostic paths • Lux Med challenge (Room F) A radically new approach to working with data in a physician's office – how to save physician's time for patients, who is "clicking" instead of talking to patients ? **From 18/09 to 19/09 a Digital Health Hackathon took place. During this time dedicated teams worked on solutions in order to answer challenges set by National Health Fund, Medicover and Lux Med.** **You are kindly invited to join presentations of competing teams which will be assessed by the Jury.**
20.00	**Evening event**

Friday (20/09/2019)	Conference Programme
08.30 – 09.00	**Welcome coffee. Visiting exhibitions**
09.00 – 10.15 **Thematic sessions**	

4.1 e-Health ecosystem   Room: **A** Language: **PL** **EN**

Moderator:

- Artur Pruszko – Director, e-Health Forum

Speakers:

- Hans Erik Henriksen – CEO, Healthcare Denmark
- Emmanuel Nabet – Digital Health Director, Healthcare Israel, Israeli Ministry of Health
- Charles Parisot – Chair IHE Services, IHE Europe
- Marcin Grabowski - Director of IT Department in National Health Fund
- Marcin Dawidowicz - Corporate Architect, Center for Healthcare Information Systems
- Elżbieta Lanc – Member of the Management Board of Mazowieckie Voivodeship
- Krzysztof Kulesza – Managing Director, Archidoc EDM
- Paweł Mańdok – CEO, Agfa HealthCare Poland
- Andrzej Osuch – Director of Business Transformation, Lux Med
- Marcin Węgrzyniak – Heathcare expert, Pentacomp

During this session we will discuss what e-health ecosystem is, what key components of e-health ecosystem are, and what criteria should be met by a good e-health ecosystem.

4.2 Data as the foundation for AI in healthcare   Room: **E** Language: **PL** **EN**

Moderators:

- Michał Czarnuch - Partner DZP / Telemedyczna Grupa Robocza
- Piotr Najbuk – Senior Associate, DZP

Speakers:

- Signe Balina - Deputy Rector for Digital Society of University of Latvia
- Radosław Sierpiński - President of Medical Research Agency
- Michał Kępowicz - Director of Strategic Relations, Philips Health Systems Poland & Baltics
- Aleksander Sowa - Oncology and Hematology Portfolio Strategy Director, Roche Poland
- Jarosław Furdal - President of Voxel

This session will be dedicated to discussing regulation and organisational aspects of using medical data for scientific research, including development of artificial intelligence in healthcare.

4.3 4.3 Start-up session presentations   Room: **F** Language: **PL** **EN**

Moderator:

- Izabela Disterheft – Coordinator, Digital Health Hackaton

Speakers:

- Julia Kosela – Founder, AioCare
  AioCare - a digital system of coordinated care for patients with asthma and COPD
- Łukasz Kołtowski – Medical University of Warsaw
  afterAMI - coordinated care for a heart attack, a place for digital health solutions (eKOS-zawał)
- Paula Rettinger-Wietoszko – Vice President of AppiCare
  OncoWay - a disease diary and communication improved with physicians for cancer patients
- Piotr Sitkowski – IT Department Director, Diagnostyka Group
  System for automatic analysis and recognition of histopathological images
- Maciej J. Nowakowski – Business Development Manager, IPT Advanced
  Lightopsy – win against cancer. Quick diagnostics, effective therapy

The session will present Polish start-ups which are developing innovative solutions for healthcare.

Friday (20/09/2019)	**Conference Programme**

4.4 CSIOZ – Technologies supporting e-health Room: **C** Language: **PL**

Moderator:

- Aneta Kulma – Deputy Director, CSIOZ

Speakers:

- Marcin Zieliński – Manager of Department of ICT Systems Development
- Andrzej Sarnowski – Manager of P1 Project, CSIOZ
- Rafał Kozioł – Development Department Director, Kamsoft
- Michał Straczyński – Director of the health protection and IT security area, Pentacomp
- Marcin Karpiński – Enterprise Systems Architect, S&T
- Rafał Włach – Director, CompuGroup Medical Poland

This session will be dedicated to presenting solutions and technologies, used by CSiOZ in the process of establishing IT systems for healthcare. We will also try to answer the question, what the role of new technologies currently is and what challenges we face in the era of their intense development.

10.15 – 10.30   **Coffee break**

10.30– 11.45

Thematic sessions

5.1 Data and medical registries as the foundation for Value Base Healthcare   Room: **A** Language: **PL** **EN**

Moderator:

- Michał Brzeziński – Medical Univeristy of Gdańsk

Speakers:

- Manuel Harmsen – Director, DICA Dutch Institute for Clinical Auditing (DICA)
- Lucas van Rossem – Director Clinical Information Products & Data processing, Value2Health
- Grzegorz Juszczyk – Director of National Institute of Public Health– National Institute of Hygiene
- Filip Urbański – Deputy Director, Department of Analitics and Strategy, National Health Fund (NFZ)
- Maria Libura – Health expert, Jagiellonian Club at University of Warmia and Mazury
- Michał Bakun – Vice President Software Development/Product Management, CompuGroup Medical Poland

During the session, based on good practices of the Dutch institute for Clinical Auditing (DICA), we will discuss the need and possibilities to introduce effective instruments for monitoring the quality of care and managing the health system based on healthcare outcomes.

5.2 AI strategy for Poland, AI in healthcare   Room: **E** Language: **PL** **EN**

Moderators:

- Piotr Mieczkowski – Executive Director, Digital Poland Foundation
- Tomasz Staszelis – Digitalisation Director, Polpharma Group

Speakers:

- Jan Staniłko – Director, Department of Innovation, Ministry of Entrepreneurship and Technology
- Robert Kroplewski – Informatics Society Agent to Minister of Digitalization
- Piotr Sankowski – Centres Council, National Centre for Research and Development
- Marek Trojanowicz – Co-founder, CTA.ai

The artificial intelligence is in many countries a rapidly growing sector of economy, which is the new and important element of economic growth and can increase efficiency in healthcare. During this session we will present and discuss works on national AI Development Policy, including proposed solutions and actions within healthcare.

Friday (20/09/2019)	Conference Programme

5.3 e-Health and Rare Diseases (EJP RD)   Room: **F**   Language: **PL** **EN**

Moderator:

- Tadeusz Jędrzejczyk – Director of Department of Health, UM Pomorskie Voivodeship

Speakers:

- Günter Schreier – President of Austrian Society of Biomedical Engineering
  eHealth and Rare Diseases - today and tomorrow
- Naside Mangir - Urologic surgeon, Sheffield Teaching Hospitals
  The Clinical Patient Management System (CPMS)
- Krystyna Chrzanowska - Head of the Department of Medical Genetics at the Children's
  Memorial Heath Institute (CMHI) in Warsaw, Poland.
  The importance of the traceability of rare diseases patients in health information systems: the
  role of the ORPHA codification
- Dorota Korycińska – President, Neurofibromatosis Association Poland
- Tomasz Stefaniak - Medical Director, Gdańsk University Clinical Centre

This session will concentrate on implementation of e-health solutions for rare diseases patients. We will talk in particular about selected good practices identified by European Joint Programme on Rare Diseases.

5.4 e-Health projects in Poland   Room: **C**   Language: **PL**

Speakers:

- Anna Potrzebowska - Head of e-Service Section, e-Health Department, Ministry of Health
  e-Health direction
- Marcin Zieliński - Manager of Department of ICT Systems Development, Center for Healthcare
  Information Systems, CSIOZ
  National Contact Point
- Marcin Grabowski - Director of IT Department in National Health Fund (NFZ)
  IT projects executed by National Health Fund
- Mariusz Feszler - Deputy Director of Information Society Department, Podlaskie Voivodeship
  e-Health information system yesterday and today
- Monika Michalska-Mazgaj - Director of the Strategic Investment Department, Malopolskie
  Voivodeship
  Medical Information System in Malopolska – challenges and solutions
- Kazimierz Murzyn - Managing Director, LifeScience Cluster Krakow
  The Centre for New Computation Methods in Diagnostics and Personalized Medicine

The session will be an overview of selected e-health projects in Poland.

11.45 – 12.00	**Coffee break**

12.00 – 13.30	**Continuity of care in digital era - patient in the center** Room: **A** Language: **PL** **EN**

Chair:

- Piotr Popowski – Head of Polish Association of Healthcare Programmes (PTPZ) / Centre of
  Integrated Care and e-Health, Medical Univeristy of Gdańsk

Speakers:

- Nick Guldemond - Professor at Moscow State Medical University and Erasmus University
- Angela Irony - Chief Nursing & Medical Centres Officer, Maccabi Healthcare Services
- Zofia Małas – President of Polish Chamber of Nurses and Midwives
- Jarosław Fedorowski – President of Polish Hospital Federation
- Monika Zamarlik - President of the Federation of Polish Federation of Organizations for
  Assisting Children and Youth with Diabetes
- Joanna Dróżdż - Gradzikiewicz – Director of CM iMed24, Vice President of Comarch Healtcare
- Piotr Soszyński - Strategic Medical Advisory Director, Medicover

During this session, participants will present and discuss new perspectives on the healthcare processes adopting digital solutions, the goals set and achieved to the health system and to particular projects, as well as challenges and risks related to "new approach to care". The leading topic of this session will be the conditions and perspectives for ensuring the continuity of care in different places and at the different stages of patient's/individual's life.

Friday (20/09/2019)	**Conference Programme**

12.00 – 13.30

Thematic sessions

6.1 Support for innovation in digital health

Room: **E** Language: **PL** **EN**

Moderator:

- Maciej Malenda – Coordinator, Digital Health Hackathon

Speakers:

- Hans Erik Henriksen – CEO, Healthcare Denmark
- Adam Niedzielski – President of National Health Fund
- Radosław Sierpiński – President of Medical Research Agency
- Jan Staniłko – Director, Department of Innovation, Ministry of Entrepreneurship and Technology
- Piotr Sankowski – Centres Council, National Centre for Research and Development
- Robert Ługowski – Managing Partner, Cobin Angels

The session will focus on the need to introduce effective mechanisms supporting digital health innovations and introduction of digital health solutions as a common practice in healthcare.

6.2 How to successfully implement telemedicine in Poland? (TGR)

Room: **C** Language: **PL**

Moderator:

- Michał Czarnuch – Partner DZP / Telemedyczna Grupa Robocza

Speakers:

- Jan Pachocki – Associate, DZP
- Łukasz Kołtowski – Medical University of Warsaw/TGR
- Rafał Dunal – Vice President, Silvermedia
- Bartosz Pampuch – Vice President, Comarch Healthcare
- Piotr Soszyński – Strategic Medical Advisory Director, Medicover
- Przemysław Tadla – Strategy Director, Medicalgorithmics
- Representative of NFZ
- Representative of Chamber of Physicians

This session will be dedicated to discussing regulation and organization aspects related to effective implementation of telemedicine in Poland. The report prepared by Telemedical Working Group Report (TGR) will be presented, and we will be informed about further actions, including preparation of "policy paper" for telemedicine.

6.3 BioBanks: Integrations of science and e-health

Room: **V** Language: **PL**

Moderator:

- Jarosław Skokowski – National specialist on clinical biobanking, BBMRI.pl

Speakers:

- Mateusz Gaczyński – Deputy Director, Department of Innovations and Development, Ministry of Science and Higher Education
- Filip Urbański – Deputy Director, Department of Analitics and Strategy, National Health Fund (NFZ)
- Krzysztof Malicki – CEO, Excento
- Andrzej Strug – Consortium BBMRI.pl, Medical University of Gdansk

The session will concentrate on the challenges related to use of medical data used for scientific research and applying them to existing health system solutions. During the interdisciplinary session, the experiences and proposals developed during the current activities of the Polish Biobank Network will be presented.

Friday (20/09/2019)	Conference Programme

6.4 New e-health technologies Room: **F** Language: **PL** **EN**

Speakers:

- Paweł Mańdok – CEO, Agfa HealthCare Poland
  Centralized patient data repository – case study

- Piotr Pecko – Expert, Transition Technologies
  Modern data warehouses and tools supporting the analysis of medical data – the example of pilot for National Oncological Network

- Łukasz Grzesiak – Sales Manager, Arrow ECS
  Trends in storing sensitive health data

- Kamil Wieczorek – Cloud Solution Architect, Oracle Polska
  Jakub Kiedrowski – Digital Transformation Specialist, Oracle Czech
  Applications of cloud technology for healthcare providers

The session will be an overview of a technological solutions applicable in the healthcare sector.

13.30 – 14.30	**Lunch**

14.30 – 15.30	**Summary of Hackathon** **Conclusions of thematic sessions** Room: **A** Language: **PL** **EN**

15.30 – 16.30

Summary session. Panel discussion Room: **A** Language: **PL** **EN**

Chair:

- Artur Pruszko – Director, e-Health Forum

Speakers:

- Adam Niedzielski – President of National Health Fund

- Bartłomiej Wnuk – Director of Center for Healthcare Information Systems (CSIOZ)

- Elżbieta Lanc – Member of the Management Board of Mazowieckie Voivodeship

- Piotr Popowski – Head of Polish Association of Healthcare Programmes (PTPZ)
  / Centre of Integrated Care and e-Health, Medical Univeristy of Gdańsk

How to support implementation of digital health:

- Global standards and solutions

- Strategy and action plans

- Stakeholders participation
